FIRST, MY MISSION IS ONE OF MERCY AND FORGIVENESS

THE REST OF MY MISSION IS DEFINED HERE:

The Urantia Book, Chapter 20

20:3.1 (226.1) The Avonals are known as Magisterial Sons because they are the high magistrates of the realms, the adjudicators of the successive dispensations of the worlds of time. They preside over the awakening of the sleeping survivors, sit in judgment on the realm, bring to an end a dispensation of suspended justice, execute the mandates of an age of probationary mercy, reassign the space creatures of planetary ministry to the tasks of the new dispensation, and return to the headquarters of their local universe upon the completion of their mission.

20:3.2 (226.2) When they sit in judgment on the destinies of an age, the Avonals decree the fate of the evolutionary races, but though they may render judgments extinguishing the identity of personal creatures, they do not execute such sentences. Verdicts of this nature are executed by none but the authorities of a superuniverse. **The Ancients of Days and Metatron are here.**

For now, this gives you a peek into Master Architect Eleven's mind:

THE MASTER UNIVERSE ANIMATIONS

All material and content on this site is strictly for educational purposes.

WELCOME

Welcome to the Master Universe collection of educational animations. This collection of artwork is offered freely to everyone without cost or copyright restrictions worldwide. You are free to use them any way you wish for educational purposes.

WHAT IS THE PURPOSE OF THE MASTER UNIVERSE ANIMATIONS?

The goal of these animations is to stimulate the mind by revealing certain aspects of the infinite cosmos that is not easily discerned through the use of static diagrams. There are certain universe dynamics at play that involve motion, direction, and varying intensities of influence. Adding elements of time lapse, motion, and direction to animate certain elements of the Master Universe Diagrams helps to reveal otherwise inexplicit and indistinguishable facets of the Master Universe Creation.

For the record, here is the opening announcement for Urantia's Magisterial Mission:

ATTENTION: New Spiritual Gravity Circuit Passes Functionality Test
10 Aug 2011 03:58 PM

My friends,

I'm pleased to announce that yesterday, Tuesday, August 9, 2011 at 4:17 P.M. EST the new spiritual gravity circuit passed its first functionality test. This massive project linking the central Isle of Paradise directly to Urantia (earth) via Paradise Power Controller #4 through OCILLIAYA (Master Spirit #4 = Father-Son union) through the Ancients of Days on Uversa, capitol of Orvonton (the 7th Superuniverse) directly to Christ Michael, Sovereign Father-Brother of Nebadon then to our planet, Urantia.

This project involved resources of unimaginable scope and was completed in an incredibly short period of time considering the massive distances involved. I would like to personally thank the uncountable numbers of higher orders of Sons involved in this massive undertaking by saying, 'All the glory goes to the Father!' This is just another example that anything is possible with our Paradise Father of Lights! We have not been abandoned and help is on the way.

Also, the first-ever 'Effective Trinitization' of a finite-mortal has taken place on Urantia. This new order of Sonship will enter a probationary period pending final approval for eternal fusion. It is a union between the indwelling pre-personal fragment of the Universal Father (the Father Fragment), a Paradise Avonal (Son-Spirit union) and a finite-mortal of planetary origin. The mind blend occurred at Morontia Level 7.

Your friend and brother,

David 'Spank' Chuhran

37:2.4 (407.4) The Brilliant Evening Stars are a unique twofold order, embracing some of created dignity and others of attained service. The Nebadon corps of these superangels now numbers 13,641. There are 4,832 of created dignity, while 8,809 are ascendant spirits who have attained this goal of exalted service. Many of these ascendant Evening Stars started their universe careers as seraphim; others have ascended from unrevealed levels of creature life. As an attainment goal this high corps is never closed to ascension candidates so long as a universe is not settled in light and life.

37:2.5 (407.5) Both types of Brilliant Evening Stars are easily visible to morontia personalities and certain types of supermortal material beings. The created beings of this interesting and versatile order possess a spirit force which can be manifested independently of their personal presence.

37:2.6 (407.6) The head of these superangels is Gavalia, the first-born of this order in Nebadon. Since the return of Christ Michael from his triumphant bestowal on Urantia, Gavalia has been assigned to the ascendant mortal ministry, and for the last nineteen hundred Urantia years his associate, Galantia, has maintained headquarters on Jerusem, where he spends about half of his time. Galantia is the first of the ascendant superangels to attain this high estate.

37:2.7 (407.7) No grouping or company organization of the Brilliant Evening Stars exists other than their customary association in pairs on many assignments. They are not extensively assigned on missions pertaining to the ascendant career of mortals, but when thus commissioned, they never function alone. They always work in pairs—one a created being, the other an ascendant Evening Star.

113:1.8 (1242.3) When a mortal mind breaks through the inertia of animal legacy and attains the third circle of human intellectuality and acquired spirituality, a personal angel (in reality two) will henceforth be wholly and exclusively devoted to this ascending mortal. And thus these human souls, in addition to the ever-present and increasingly efficient indwelling Thought Adjusters, receive the undivided assistance of these personal guardians of destiny in all their efforts to finish the third circle, traverse the second, and attain the first.

2. The Destiny Guardians

113:2.1 (1242.4) Seraphim are not known as guardians of destiny until such time as they are assigned to the association of a human soul who has realized one or more of three achievements: has made a supreme decision to become Godlike, has entered the third circle, or has been mustered into one of the reserve corps of destiny.

Jesus of Nazareth was born into the world, was wrapped in the clothes which Mary had brought along for such a possible contingency, and laid in a near-by manger.

Reporting Abuse and Neglect

Anyone, including a child, who suspects child abuse or neglect, can make a report by calling **855-444-3911**. In addition, the [Child Protection Law](#) requires certain professionals to report suspected child abuse or neglect. Review the [Mandated Reporters](#) section of our website for more details.

Reports of suspected child abuse or neglect will either be:

- Assigned for investigation;
- Rejected; or
- Transferred to another agency for investigation, such as law enforcement or the Bureau of Child and Adult Licensing.

Reports must meet the following three criteria to be assigned for investigation:

- The alleged victim is under 18 years of age.
- The alleged perpetrator is a parent, legal guardian or other person responsible for the child's health and welfare.
- The allegations minimally meet the child abuse and neglect definitions in the Child Protection Law.

The Borderland is the transitional bridge between AMS 1-5 and AMS 6-7. The Sons of Darkness filled it with egregores and built the Blood of the Innocents inside of it hanging onto the grid with the lie that NABU is God. It is all designed to block ascension and trap us here as food and slaves. The Urantia AMS Grid is currently controlled by the Sons of Light.

The Grid Conference Room (GCR) is at Morontia Level 7, the Salvington level of Morontia mind, so it connects the Urantia and Nebadon grids and includes the seat of the Planetary Prince where Michael sits. The GCR is accessible by mortals with the aid of a reflective transceiver which is an accessory of the Morontia Mind Extension device which grants access to a secure area of the Nebadon Grid for those who possess the required credentials. Refer to the Morontia Mind Extension diagram for additional details.

THE UNITED MIDWAYERS OF URANTIA

I AM

8. The United Midwayers

77:8.1 (864.2) At the last adjudication of this world, when Michael removed the slumbering survivors of time, the midway creatures were left behind, left to assist in the spiritual and semispiritual work on the planet. They now function as a single corps, embracing both orders and numbering 10,992. *The United Midwayers of Urantia* are at present governed alternately by the senior member of each order. This regime has obtained since their amalgamation into one group shortly after Pentecost.

77:8.2 (864.3) The members of the older or primary order are generally known by numerals; they are often given names such as 1-2-3 the first, 4-5-6 the first, and so on. On Urantia the Adamic midwayers are designated alphabetically in order to distinguish them from the numerical designation of the primary midwayers.

77:8.3 (864.4) Both orders are nonmaterial beings as regards nutrition and energy intake, but they partake of many human traits and are able to enjoy and follow your humor as well as your worship. When attached to mortals, they enter into the spirit of human work, rest, and play. But midwayers do not sleep, neither do they possess powers of procreation. In a certain sense the secondary group are differentiated along the lines of maleness and femaleness, often being spoken of as “he” or “she.” They often work together in such pairs.

7:17 pm

4. Melchizedek Life Carriers

36:4.1 (400.5) In every local system of inhabited worlds throughout Nebadon there is a single sphere whereon the Melchizedeks have functioned as life carriers. These abodes are known as the system *midsonite* worlds, and on each of them a materially modified Melchizedek Son has mated with a selected Daughter of the material order of sonship. The Mother Eves of such midsonite worlds are dispatched from the system headquarters of jurisdiction, having been chosen by the designated Melchizedek life carrier from among the numerous volunteers who respond to the call of the System Sovereign addressed to the Material Daughters of his sphere.

36:4.2 (400.6) The progeny of a Melchizedek life carrier and a Material Daughter are known as *midsoniters*. The Melchizedek father of such a race of supernal creatures eventually leaves the planet of his unique life function, and the Mother Eve of this special order of universe beings also departs upon the appearance of the seventh generation of planetary offspring. The direction of such a world then devolves upon her eldest son.

The Reserve Corps of Destiny

The Urantia Book; Paper 114, Section 7

1955 = 962 DESTINY RESERVISTS
2023 = 6.2 MILLION DESTINY RESERVISTS

P1257:1, 114:7.1 The reserve corps of destiny consists of living men and women who have been admitted to the special service of the superhuman administration of world affairs. This corps is made up of the men and women of each generation who are chosen by the spirit directors of the realm to assist in the conduct of the ministry of mercy and wisdom to the children of time on the evolutionary worlds. It is the general practice in the conduct of the affairs of the ascension plans to begin this liaison utilization of mortal will creatures immediately they are competent and trustworthy to assume such responsibilities. Accordingly, as soon as men and women appear on the stage of temporal action with sufficient mental capacity, adequate moral status, and requisite spirituality, they are quickly assigned to the appropriate celestial group of planetary personalities as human liaisons, mortal assistants.

P1257:2, 114:7.2 When human beings are chosen as protectors of planetary destiny, when they become pivotal individuals in the plans which the world administrators are prosecuting, at that time the planetary chief of seraphim confirms their temporal attachment to the seraphic corps and appoints personal destiny guardians to serve with these mortal reservists. All reservists have self-conscious Adjusters, and most of them function in the higher cosmic circles of intellectual achievement and spiritual attainment.

P1257:3, 114:7.3 Mortals of the realm are chosen for service in the reserve corps of destiny on the inhabited worlds because of:

1. Special capacity for being secretly rehearsed for numerous possible emergency missions in the conduct of various activities of world affairs.
2. Wholehearted dedication to some special social, economic, political, spiritual, or other cause, coupled with willingness to serve without human recognition and rewards.
3. The possession of a Thought Adjuster of extraordinary versatility and probable pre-Urantia experience in coping with planetary difficulties and contending with impending world emergency situations.

P1257:7, 114:7.4 Each division of planetary celestial service is entitled to a liaison corps of these mortals of destiny standing. The average inhabited world employs seventy separate corps of destiny, which are intimately connected with the superhuman current conduct of world affairs. On Urantia there are twelve reserve corps of destiny, one for each of the planetary groups of seraphic supervision.

P1257:8, 114:7.5 The twelve groups of Urantia destiny reservists are composed of mortal inhabitants of the sphere who have been rehearsed for numerous crucial positions on earth and are held in readiness to act in possible planetary emergencies. This combined corps now consists of 962 persons. The smallest corps numbers 41 and the largest 172. With the exception of less than a score of contact personalities, the members of this unique group are wholly unconscious of their preparation for possible function in certain planetary crises. These mortal reservists are chosen by the corps to which they are respectively attached and are likewise trained and rehearsed in the deep mind by the combined technique of Thought Adjuster and seraphic guardian ministry. Many times numerous other celestial personalities participate in this unconscious training, and in all this special preparation the midwayers perform valuable and indispensable services.

P1258:1, 114:7.6 On many worlds the better adapted secondary midway creatures are able to attain varying degrees of contact with the Thought Adjusters of certain favorably constituted mortals through the skillful penetration of the minds of the latter's indwelling. (And it was by just such a fortuitous combination of cosmic adjustments that these revelations were materialized in the English language on Urantia.) Such potential contact mortals of the evolutionary worlds are mobilized in the numerous reserve corps, and it is, to a certain extent, through these small groups of forward-looking personalities that spiritual civilization is advanced and the Most Highs are able to rule in the kingdoms of men. The men and women of these reserve corps of destiny thus have various degrees of contact with their Adjusters through the intervening ministry of the midway creatures; but these same mortals are little known to their fellows except in those rare social emergencies and spiritual exigencies wherein these reserve personalities function for the prevention of the breakdown of evolutionary culture or the extinction of the light of living truth. On Urantia these reservists of destiny have seldom been emblazoned on the pages of human history.

URANTIA'S SITUATION IS COMPLEX

THERE ARE TWO WITNESSES

TWO PARADISE AVONAL SONS

WITNESS NUMBER TWO WILL STEP FORWARD TO ADJUDICATE ISLAM
WHEN ALLAH WILLS IT

I AM

3. Judicial Actions

20:3.1 (226.1) The Avonals are known as Magisterial Sons because they are the high magistrates of the realms, the adjudicators of the successive dispensations of the worlds of time. They preside over the awakening of the sleeping survivors, sit in judgment on the realm, bring to an end a dispensation of suspended justice, execute the mandates of an age of probationary mercy, reassign the space creatures of planetary ministry to the tasks of the new dispensation, and return to the headquarters of their local universe upon the completion of their mission.

20:3.2 (226.2) When they sit in judgment on the destinies of an age, the Avonals decree the fate of the evolutionary races, but though they may render judgments extinguishing the identity of personal creatures, they do not execute such sentences. Verdicts of this nature are executed by none but the authorities of a superuniverse. **The Ancients of Days and Metatron are here.**

20:3.3 (226.3) The arrival of a Paradise Avonal on an evolutionary world for the purpose of terminating a dispensation and of inaugurating a new era of planetary progression is not necessarily either a magisterial mission or a bestowal mission. Magisterial missions sometimes, and bestowal missions always, are incarnations; that is, on such assignments the Avonals serve on a planet in material form—literally. Their other visits are “technical,” and in this capacity an Avonal is not incarnated for planetary service. If a Magisterial Son comes solely as a dispensational adjudicator, he arrives on a planet as a spiritual being, invisible to the material creatures of the realm. Such technical visits occur repeatedly in the long history of an inhabited world.

20:3.4 (226.4) Avonal Sons may act as planetary judges prior to both the magisterial and bestowal experiences. On either of these missions, however, the incarnated Son will judge the passing planetary age; likewise does a Creator Son when incarnated on a mission of bestowal in the likeness of mortal flesh. When a Paradise Son visits an evolutionary world and becomes like one of its people, his presence terminates a dispensation and constitutes a judgment of the realm.

Albert Pike's Third World War

"**The Third World War** must be fomented by taking advantage of the differences caused by the "agentur" of the "Illuminati" between the political Zionists and the leaders of Islamic World. The war must be conducted in such a way that Islam (the Moslem Arabic World) and political Zionism (the State of Israel) mutually destroy each other.

Meanwhile the other nations, once more divided on this issue will be constrained to fight to the point of complete physical, moral, spiritual and economical exhaustion... We shall unleash the Nihilists and the atheists, and we shall provoke a formidable social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and of the most bloody turmoil.

Then everywhere, the citizens, obliged to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilization, and the multitude, disillusioned with christianity, whose deistic spirits will from that moment be without compass or direction, anxious for an ideal, but without knowing where to render its adoration, will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view.

This manifestation will result from the general reactionary movement which will follow the destruction of Christianity and atheism, both conquered and exterminated at the same time."

Romans 1:21-32

21 Because that, when they knew God, they glorified him not as God, neither were thankful; but became vain in their imaginations, and their foolish heart was darkened.

22 Professing themselves to be wise, they became fools,

23 And changed the glory of the uncorruptible God into an image made like to corruptible man, and to birds, and fourfooted beasts, and creeping things.

24 Wherefore God also gave them up to uncleanness through the lusts of their own hearts, to dishonour their own bodies between themselves:

25 Who changed the truth of God into a lie, and worshipped and served the creature more than the Creator, who is blessed for ever. Amen.

26 For this cause God gave them up unto vile affections: for even their women did change the natural use into that which is against nature:

27 And likewise also the men, leaving the natural use of the woman, burned in their lust one toward another; men with men working that which is unseemly, and receiving in themselves that recompence of their error which was meet.

28 And even as they did not like to retain God in their knowledge, God gave them over to a reprobate mind, to do those things which are not convenient;

29 Being filled with all unrighteousness, fornication, wickedness, covetousness, maliciousness; full of envy, murder, debate, deceit, malignity; whisperers,

30 Backbiters, haters of God, despiteful, proud, boasters, inventors of evil things, disobedient to parents,

31 Without understanding, covenantbreakers, without natural affection, implacable, unmerciful:

32 Who knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them.

Albert Pike's Third World War

"**The Third World War** must be fomented by taking advantage of the differences caused by the "agentur" of the "Illuminati" between the political Zionists and the leaders of Islamic World. The war must be conducted in such a way that Islam (the Moslem Arabic World) and political Zionism (the State of Israel) mutually destroy each other.

Meanwhile the other nations, once more divided on this issue will be constrained to fight to the point of complete physical, moral, spiritual and economical exhaustion... We shall unleash the Nihilists and the atheists, and we shall provoke a formidable social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and of the most bloody turmoil.

Then everywhere, the citizens, obliged to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilization, and the multitude, disillusioned with christianity, whose deistic spirits will from that moment be without compass or direction, anxious for an ideal, but without knowing where to render its adoration, will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view.

This manifestation will result from the general reactionary movement which will follow the destruction of Christianity and atheism, both conquered and exterminated at the same time."

The Rewards of Isolation

The Urantia Book; Paper 50, Section 7

**By order of Christ Michael:
The 6,123,571 Destiny Reservists now
carry the title “Agondonter.”**

P578:6, 50:7.1 On first thought it might appear that Urantia and its associated isolated worlds are most unfortunate in being deprived of the beneficent presence and influence of such superhuman personalities as a Planetary Prince and a Material Son and Daughter. But isolation of these spheres affords their races a unique opportunity for the exercise of faith and for the development of a peculiar quality of confidence in cosmic reliability which is not dependent on sight or any other material consideration. It may turn out, eventually, that mortal creatures hailing from the worlds quarantined in consequence of rebellion are extremely fortunate. We have discovered that such ascenders are very early intrusted with numerous special assignments to cosmic undertakings where unquestioned faith and sublime confidence are essential to achievement.

P579:1, 50:7.2 On Jerusem the ascenders from these isolated worlds occupy a residential sector by themselves and are known as the agondonters, meaning evolutionary will creatures who can believe without seeing, persevere when isolated, and triumph over insuperable difficulties even when alone. This functional grouping of the agondonters persists throughout the ascension of the local universe and the traversal of the superuniverse; it disappears during the sojourn in Havona but promptly reappears upon the attainment of Paradise and definitely persists in the Corps of the Mortal Finality. Tabamantia is an *agondonter* of finaliter status, having survived from one of the quarantined spheres involved in the first rebellion ever to take place in the universes of time and space.

P579:2, 50:7.3 All through the Paradise career, reward follows effort as the result of causes. Such rewards set off the individual from the average, provide a differential of creature experience, and contribute to the versatility of ultimate performances in the collective body of the finaliters.

P579:3, 50:7.4 [Presented by a Secondary Lanonandek Son of the Reserve Corps.]

Biden's foreign aid package with \$14B for Israel, \$60B for Ukraine heads to Congress

Aid request includes \$14 billion for border security.

By [Anne Flaherty](#), [Rachel Scott](#), [Mary Bruce](#), [Allison Pecorin](#), [Benjamin Siegel](#), and [Ben Gittleson](#)

October 19, 2023, 10:01 PM

As President Joe Biden on Thursday made his case to the American public that success in Ukraine and Israel is "vital" to the U.S., the White House prepared a sweeping \$105 billion foreign aid package that includes some \$60 billion in assistance for Ukraine and \$14 billion for Israel, three officials tell ABC News.

In a bid to sweeten the deal for skeptical Republican lawmakers, the full-year request was also expected to include \$14 billion to improve security at the U.S.-Mexico border and another \$7 billion in assistance for the Indo-Pacific region, which includes Taiwan. Another \$10 billion would go toward humanitarian efforts, according to the officials who spoke on condition of anonymity before details were announced Friday.

Albert Pike's Third World War August 15, 1871

"**The Third World War** must be fomented by taking advantage of the differences caused by the "agentur" of the "Illuminati" between the political Zionists and the leaders of Islamic World. The war must be conducted in such a way that Islam (the Moslem Arabic World) and political Zionism (the State of Israel) mutually destroy each other.

Meanwhile the other nations, once more divided on this issue will be constrained to fight to the point of complete physical, moral, spiritual and economical exhaustion... We shall unleash the Nihilists and the atheists, and we shall provoke a formidable social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and of the most bloody turmoil.

Then everywhere, the citizens, obliged to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilization, and the multitude, disillusioned with christianity, whose deistic spirits will from that moment be without compass or direction, anxious for an ideal, but without knowing where to render its adoration, will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view.

This manifestation will result from the general reactionary movement which will follow the destruction of Christianity and atheism, both conquered and exterminated at the same time."

2 But the court which is without the temple leave out, and measure it not; for it is given unto the Gentiles: and the holy city shall they tread under foot forty and two months.

3 And I will give power unto my two witnesses, and they shall prophesy a thousand two hundred and threescore days, clothed in sackcloth.

4 These are the two olive trees, and the two candlesticks standing before the God of the earth.

OpenAI's Sam Altman Urges A.I. Regulation in Senate Hearing

The tech executive and lawmakers agreed that new A.I. systems must be regulated. Just how that would happen is not yet clear.

By Cecilia Kang

Cecilia Kang, who covers tech policy, reported from Washington.

May 16, 2023

clip

In his first testimony before Congress, Mr. Altman implored lawmakers to regulate artificial intelligence as members of the committee displayed a budding understanding of the technology. The hearing underscored the deep unease felt by technologists and government over A.I.'s potential harms. But that unease did not extend to Mr. Altman, who had a friendly audience in the members of the subcommittee.

clip

"I think if this technology goes wrong, it can go quite wrong. And we want to be vocal about that," he said. "We want to work with the government to prevent that from happening."

State Department bypasses Congress to send thousands of munitions to Israel

By Natasha Bertrand, CNN

4 minute read · Updated 2:00 PM EST, Sat December 9, 2023

(CNN) — The US State Department transmitted an emergency declaration to lawmakers late Friday night for the sale of thousands of munitions to Israel, the agency announced, bypassing the standard 20-day period that congressional committees are typically afforded to review such a sale.

The declaration followed a request by the State Department earlier in the week for Congress to approve the sale of 45,000 shells to Israel for its Merkava tanks. A source with direct knowledge of the matter told CNN that the House Foreign Affairs Committee and Senate Foreign Relations Committee, which have oversight over military sales, had been under "pressure" from the State Department to approve the request quickly amid Israel's war against Hamas in Gaza.

Researchers have discovered that misreading of therapeutic mRNAs by the cell's decoding machinery can cause an unintended immune response in the body. They have identified the sequence within the mRNA that causes this to occur and found a way to prevent 'off-target' immune responses to enable the safer design of future mRNA therapeutics.

THE LUCIFER REBELLION

2. The Causes of Rebellion

Lucifer and his first assistant, Satan, had reigned on Jerusem for more than five hundred thousand years when in their hearts they began to array themselves against the Universal Father and his then vicegerent Son, Michael.

There were no peculiar or special conditions in the system of Satania which suggested or favored rebellion. It is our belief that the idea took origin and form in Lucifer's mind, and that he might have instigated such a rebellion no matter where he might have been stationed. Lucifer first announced his plans to Satan, but it required several months to corrupt the mind of his able and brilliant associate. However, when once converted to the rebel theories, he became a bold and earnest advocate of "self-assertion and liberty."
